Long-life 1DLP laser projectors

CHKISTIE®

 630-GS and 635-GS available only in white except for China, where it is only available in black.

Long-life laser projectors with a low cost of ownership

Avoid downtime, cost of lamp replacements and maintenance by choosing the Christie® GS Series of solid state illumination projectors for your next project. From business venues to events and beyond, professional-grade Christie GS Series models deliver great performance and reliability in high-usage environments.

Featuring laser phosphor illumination, the Christie GS Series typically provides 20,000 hours of low-cost operation. Wireless connectivity, a small footprint, lightweight, quiet operation and a full suite of lenses makes the GS Series ideal for boardrooms, conference rooms, education, worship facilities, live event staging and other small and medium venues.

Including proprietary Christie BoldColor Technology in our 850-GS and 1075-GS models, takes 1DLP® laser phosphor to even higher levels of brightness and image quality with even more accurate color reproduction.

Christie GS Series

All Christie® GS Series projectors deliver accurate color reproduction, image quality and high-brightness. Christie 850-GS and 1075-GS models include proprietary Christie BoldColor Technology for the most life-like images and natural color reproduction possible with laser phosphor illumination – an industry first.
